1. This is a first Office action on the merits for application serial number 10/661,161 filed 09/12/03. Claims 1-12 are pending.

2. The drawings are objected to under 37 CFR 1.83(a)/(b). The drawings must be complete and clearly show every feature of the invention specified in the claims. Therefore, the canopy frame sliders 125 must be clearly shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 1-12 are rejected under 35 U.S.C. 102(a) as being anticipated by US 2003/0029490 to Price et al.

Price provides each of the claimed elements as follows:

Corner support members 108, scissor assemblies 156, sliders 122, which are coupled to both the scissors assemblies and extenders 200, canopy frame support members 178 having a joint comprised of sleeves 244 and stops 246, 248 which extend to support a peak at 210. The corner support members are shown and described as angled inwards. Claim 1 fails to specify that the canopy frame sliders are independent and distinct from the scissor sliders. Slider assembly 122 provides a slider for both the scissor assemblies and the extenders.

5. The examiner acknowledges receipt of the IDS filed 04/02/04. An initialed copy of the 1449 form is attached.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
